

Here are the chip and fog seal projects scheduled for this year. Work is planned to be done in July and August.

Road Name	From	To	Township	Owner	Length (mi)	Prop. Width	Prop.
Button Rd	Montcaim Ave	Whites Bridge Rd	Otisco	ICRD	2.498	28	
Button Rd	Whites Bridge Rd	Miriam Rd	Otisco	ICRD	1.010	24	
Whites Bridge Rd	M 44	Button Rd	Otisco	ICRD	2.011	24	
Whites Bridge Rd	5 Mile Rd	Button Rd	Otisco	ICRD	1.343	24	

We are also working with the Safety Unit at MDOT to submit a grant application for a project on Zahm Road. We want to fix both the curve/intersection and the rutting that has occurred. If the whole 3 miles gets selected, this would be a 2025 project.

Other work items:

- Tree cutting with a not to exceed cost of \$200,000. The plan is to cut the trees down and leave the stumps at ground level. Later, a project to get ditches established could happen.
- \$40,000 of gravel
- 3 road bringings.
- Request for more Traffic Counts on the Primary and Local roads, and a map of the counts.
- The plan is to PASER rate the Local Roads this summer so a network analysis can be done to determine a future fix list.
